

Dated: December 3, 2020

Presidential Regulation Number 109 Year 2020 about The Acceleration of the National Strategic Projects (PSN)

President Joko Widodo has issued Presidential Regulation Number 109 Year 2020 to amend Presidential Regulation Number 3 Year 2016 (has been amended twice before by Presidential Regulation Number 58 Year 2017 and Presidential Regulation Number 56 Year 2018) about the acceleration of the National Strategic Projects (PSN).

National Strategic Projects (PSN) are the projects and/or programs implemented by the government, regional government, and/or business entities, which could improve and provide equal development of people's welfare and region development. The implementation of Presidential Regulation Number 109 Year 2020 aims to increase investment and job creation, which can encourage economic growth in Indonesia.

National Strategic Projects (PSN) is set based on 3 government criterias namely Basic, Strategic, and Operational criteria. Basic criteria includes compliance with the National Medium-Term Development Plan (RPJMN), strategic plans, spatial plans, or regulated in special regulations. Strategic criteria includes strategic role in National development, and project distribution in the region. Operational criteria includes feasibility quality, investment value more than IDR 500 billion, and contribution to support the economy.

Therefore through the implementation of the Presidential Regulation Number 109 Year 2020, National Strategic Projects (PSN) is changed from 227 to 201 projects, 10 programs that cover 23 sectors, with the amount of investment of IDR 4,809.7 Trillion. The 10 programs include electricity infrastructure development, economic equalization, border area development, exit toll access, national tourism strategic area (KSPN), PSEL, Smelter Development, national food supply improvement (Food Estate), super-hub development, and regional development acceleration program.
